

For Immediate Release

Digital Recording Studio Opens in Manitou Springs

MANITOU SPRINGS, Colo, — October 14, 1999 — Horseshoe Studios of Manitou announced today that it is open for business and ready to serve the recording needs of Manitou Springs, and the entire Pikes Peak Region.

“The new studio’s mission is to give local acts a place to create high quality recordings at a reasonable price,” said founder and owner Bob Morsch. The studio utilizes state-of-the-art digital recording equipment offering 256 track audio recording and the latest in MIDI technology. “We hope to attract local musicians who can’t afford the hourly rates at large recording studios,” said Mr. Morsch, “By charging a small flat rate for recording and mixing time, and by avoiding the cost of tape by using digital recording, we are able to turn out a top notch recording with a CD master for a minimal charge.”

The studio is located in Manitou Springs, on Manitou Place, just off Manitou Avenue. For more information, or to schedule studio time please contact Bob Morsch at (719) 685-9153 or e-mail him at horseshoe@mail.com.
